

Material:	ORATAPE MT80P
------------------	----------------------

Overview:

ORATAPE MT80P Transfer Tape is a transparent PVC-based mounting film, ideal for transferring cut lettering and contour cut printed graphics with precision and ease. Its specially formulated adhesive is designed to seamlessly integrate with other ORAFOL products, ensuring reliable performance even when affixed for extended periods of up to six months without issues like edge curling. One of the key features of this transfer tape is its transparent liner, which comes with a printed grid pattern, making it easier to cut sections accurately. This design is particularly useful when pre-masking larger graphics with a laminator or aligning overlapping and oversized graphics, as the transparency simplifies the process.

Description:

The ORATAPE MT80P ensures smooth application and ease of use, especially for complex or larger graphic projects. Its durability and user-friendly design make it a go-to solution for professionals in the signage and printing industries.

Parameters:

Characteristics	Units	Value	Test Method
Shape		Roll	
Series		Mounting	
Thickness	mm	0.1	
Color		Transparent	
Adhesive		Modified solvent polyacrylate	
Backing liner		42# white one-sided siliconized glassine paper	
Base film		PVC	
Durability	years	1/2	

Warranty:**Technical data**

All information and statements contained in this document are based on the manufacturer's or material supplier's sources known to us at the time of filing. PERLON, spol. s r.o. believes them to be reliable in good faith, but the accuracy and/or completeness of such information is not guaranteed. The data should be considered representative or typical only and should not be used for specification purposes. Manufacturers reserve the right to make changes to the design, construction and technical data of products without prior notice.

Use of the product

Many factors beyond the control of PERLON, spol. s r.o. and known only to the user may affect the use and performance of materials in a particular application. Therefore, we recommend that the customer perform their own tests of the suitability and performance of the material for their application and to a responsible extent for reliable results. As a result, the customer is solely responsible for evaluating the product and determining if it is suitable for the customer's application, including evaluating workplace hazards and reviewing all applicable regulations and standards. Failure to properly evaluate, use, or comply with all applicable safety regulations may result in injury, illness, death, and/or property damage if the material and associated safety is not properly evaluated. PERLON, spol. s r.o. makes no warranties of fitness for a particular purpose.

Limitation of liability

PERLON, spol. s r.o. shall not be liable for any loss or damage arising out of or relating to the product material, whether direct, indirect, special, incidental or consequential (including, but not limited to, loss of products or business), regardless of the applicable legal practice, including but not limited to warranty, contract, negligence or strict liability.
