

Material:	BO871 LINER HF 80 WH LR FSC
------------------	------------------------------------

Overview:

Clay-Coated Kraft liner, white, with low release. This material is moisture stabilized and thus has got a very good dimensional stability and lay-flatness. Self-adhesive products in sheets.

Description:

An extremely tough, clay-coated white kraft paper, siliconized and with low release.

- Applications and Use: This material is moisture stabilized and thus has got a very good dimensional stability. It is particularly suitable for self-adhesive products in sheets
- Conversion and Printing: Specially designed for high speed conversion, punching and perforation
- Shelf Life: To obtain optimal performance, use this product within one year of the date of manufacture, under storage conditions as defined by FINAT (20-25°C; 40-50%RH). Prolonged storage outside these conditions might reduce the shelf life.

Parameters:

Characteristics	Units	Value	Test Method
Type		Silicone paper	
Color		White	
Thickness	mm	0.082	ISO 534
Basis Weigh	g/m ²	80	ISO 536
Shape		Sheet	
Coating		Clay	
Tear strength	mN	440	ISO 1974
Release FTM10	cN/20mm	20	

Warranty:**Technical data**

All information and statements contained in this document are based on the manufacturer's or material supplier's sources known to us at the time of filing. PERLON, spol. s r.o. believes them to be reliable in good faith, but the accuracy and/or completeness of such information is not guaranteed. The data should be considered representative or typical only and should not be used for specification purposes. Manufacturers reserve the right to make changes to the design, construction and technical data of products without prior notice.

Use of the product

Many factors beyond the control of PERLON, spol. s r.o. and known only to the user may affect the use and performance of materials in a particular application. Therefore, we recommend that the customer perform their own tests of the suitability and performance of the material for their application and to a responsible extent for reliable results. As a result, the customer is solely responsible for evaluating the product and determining if it is suitable for the customer's application, including evaluating workplace hazards and reviewing all applicable regulations and standards. Failure to properly evaluate, use, or comply with all applicable safety regulations may result in injury, illness, death, and/or property damage if the material and associated safety is not properly evaluated. PERLON, spol. s r.o. makes no warranties of fitness for a particular purpose.

Limitation of liability

PERLON, spol. s r.o. shall not be liable for any loss or damage arising out of or relating to the product material, whether direct, indirect, special, incidental or consequential (including, but not limited to, loss of products or business), regardless of the applicable legal practice, including but not limited to warranty, contract, negligence or strict liability.
